

7 Questions to Ask...

Preparing ahead of time can help you best manage your child's vision health. Here are some questions you can take along when you visit your child's eye doctor.

1 What tests will we be doing today?

2 What activities and lifestyle changes can you suggest to help manage my child's condition OR keep their eyes healthy as they grow?

3 Is my child at risk of developing any eye conditions such as myopia?

4 How can I best monitor my child's eye health?

5 Do you have any materials or other suggestions on how I can learn more about eye health?

6 What is the difference between vision screenings at school and comprehensive eye exams?

7 How often do you recommend we return for a comprehensive eye exam?

Lastly, don't forget...

A list of any medications, allergies or other conditions your child has.
Information on any history of eye disease in your family.
